About the Home Care & Repair Service

The Age UK North Yorkshire & Darlington Home Care & Repair Service provides a trusted, affordable general home repairs service primarily to older people in Darlington.

The service is available to residents of DL1 and DL3 postcodes, providing a range of useful jobs to make your life easier.

The Handyperson team can assist in areas such as:

- Home Safety (such as grab-rails)
- Home Security (e.g. key boxes)
- General Repairs (installing shelving, replacing curtain rails and more)

What types of jobs can the Handyperson do?

The service aims to do jobs that take no longer than 3 hours to complete, although the majority of our jobs are completed within 1 hour. The Handyperson will advise on timescales before proceeding with the job.

Examples of the type of works the handypersons can do, include:

- **Home Safety** - fitting smoke alarms and carbon monoxide detectors, grabrails and removing tripping hazards such as re-fixing carpets.
- **Home Security** - Fitting Key Safes
- **General Repairs and other minor jobs** - such as easing and refitting doors, changing curtains, lowering shelves.
- **Replacing Light Bulbs**

What types of jobs can the Handyperson not do?

The handypersons are unable to do jobs that require a qualified tradesman, and therefore we are unable to do jobs involving:

- **Gas supply or appliances**
- **Electrical wiring, sockets or light fittings**
- **Minor Electrical Works**
- **Repairs to appliances**
- **Loft insulation**

The handypersons are also unable to do routine gardening jobs, painting and decorating, any works above stepladder height or jobs that are expected to take more than 3 hours.

If you are a tenant, handypersons cannot do jobs that are the responsibility of your landlord.

How do I book the handyperson?

Please complete the form by clicking the link below to make your request, or call us on 01325 362832.
